

VICTRIX Zeus Superior kW

Wall-hung condensing boiler with built-in stainless steel storage tank of 54 litres

- Heat outputs of 26 and 32 kW
- Wide liquid crystal backlit display
- High efficiency and low pollutant emissions thanks to condensing technology
- 3 star marking sanitary comfort
- Stainless steel storage tank with capacity of 54 litres
- Stainless steel condensing module
- Modulating heat output from 20 to 100%
- Modulating system pump
- Adjustable system by-pass
- Optimum seasonal performances thanks to thermoregulation options such as Super CAR, CAR^{v2} and external probe
- Standard frost protection up to -5 °C

Model	Dimensions (H x W x D) mm	Empty appliance weight kg
26 kW	900 x 600 x 466	70,1
32 kW	900 x 600 x 466	72,8

Model	Code N.G. L.P.G.	Heat output kW		Storage tank capacity	Efficiency at nominal heat output		Sanitary comfort (EN 13203-1)	Protection index	D.H.W. production (Δt 30 °C)	
		C.H.	D.H.W.		80-60 °C	40-30 °C			First 10 min	Continuous service
VICTRIX Zeus Superior 26 kW I	3.019190 3.019190GPL	23,6	25,8	54 litres	96,7%	106,5%	★ ★ ★	IPX5D	160 litres	12,3 l/min
VICTRIX Zeus Superior 32 kW I	3.019191 3.019191GPL	32,0	32,0	54 litres	96,9%	107,3%	★ ★ ★	IPX5D	192 litres	15,3 l/min

The price of VICTRIX Zeus Superior kW boilers do not include the "Green Series" flue kit, to be ordered separately.

MAIN FLUE KITS

Type	Code
Horizontal concentric complete kit Ø 60/100 with swivel terminal NEW	3.024267
Horizontal concentric complete kit Ø 60/100	3.012000
Concentric vertical complete kit Ø 60/100	3.018501
Twin pipes complete kit Ø 80/80	3.012002

For good performance and safe operation use Immergas "Green Series" pipes and terminal flue outlet only.

MAIN OPTIONS

Type	Code
Super CAR (modulating remote control)	3.016577
External probe	3.014083
Relay board kit	3.015350

For the complete list of the option kits and of the flue system kits for VICTRIX Zeus Superior kW boiler see the second section of the catalogue.
