# nosotros

Since its inception in 2001, Altoglass SA has been synonymous with excellence in the manufacturing and commercialization of glass mosaic. Founded in the heart of the ceramic cluster of Castellón (Moncofar), our company has stood out for offering a high-quality product, along with meticulous design and optimal service. In 2011, we took a significant step towards international expansion with the establishment of Altoglass USA LLC., establishing a solid presence in the United States. This strategic decision allowed us to bring our products to new markets and consolidate our reputation as leaders in the industry. However, it was in 2020 when Altoglass wrote a new chapter in its history by creating Altoglass Group. The acquisition of the historic Cobsa factory marked a milestone in our trajectory, expanding our product range and strengthening our position in the market. Under the Altoglass brand, we now also offer porcelain with impressive designs, especially designed for pools.

Today, we remain committed to our mission of offering the highest quality products and exceptional service to our customers worldwide. With every mosaic we produce, we tell a story of dedication and excellence, keeping the magic of Altoglass alive over time.

Depuis sa création en 2001, Altoglass SA est synonyme d'excellence dans la fabrication et la commercialisation de mosaïque de verre. Fondée au cœur du cluster de la céramique de Castellón (Moncofar), notre entreprise s'est démarquée pour proposer un produit de haute qualité, associé à un design méticuleux et un service optimal. En 2011, nous avons franchi une étape importante vers l'expansion internationale avec la création d'Altoglass USA LLC., établissant ainsi une présence solide aux États-Unis. Cette décision stratégique nous a permis de concilier nos produits à de nouveaux marchés et de consolider notre réputation de leader dans le secteur. Cependant, c'est en 2020 quand Altoglass a écrit un nouveau chapitre de son histoire en créant le groupe Altoglass. L'acquisition de l'historique usine de Cobsa a marqué une étape importante dans notre trajectoire, élargissant notre gamme de produits et renforçant notre position sur le marché. Sous la marque Altoglass, nous proposons désormais également du grès cérame avec des designs impressionnants, spécialement conçus pour les piscines.

A ce jour, nous restons engagés dans notre mission de proposer des produits de la plus haute qualité et un service exceptionnel à nos clients du monde entier. Avec chaque mosaïque que nous produisons, nous racontons une histoire de dévouement et d'excellence, préservant ainsi la magie d'Altoglass qui perdure au fil du temps.

Desde sus inicios en el año 2001, Altoglass SA ha sido sinónimo de excelencia en la fabricación y comercialización de mosaico vitreo. Fundada en el corazón del clúster cerámico de Castellón (Moncofar), nuestra empresa se ha destacado por ofrecer un producto de alta calidad, junto a un diseño cuidado y un servicio óptimo. En el año 2011, dimos un importante paso hacia la expansión internacional con la creación de Altoglass USA LLC., estableciendo una presencia sólida en Estados Unidos. Esta decisión estratégica nos permitió acercar nuestros productos a nuevos mercados y consolidar nuestra reputación como referentes en el sector. Sin embargo, fue en el año 2020 cuando Altoglass escribió un nuevo capítulo en su historia al crear Altoglass Group. La adquisición de la histórica fábrica de Cobsa marcó un hito en nuestra trayectoria, ampliando nuestra gama de productos y fortaleciendo nuestra posición en el mercado. Bajo la marca Altoglass, ahora también ofrecemos porcelánico con diseños impresionantes, especialmente diseñados para piscinas.

Hoy en día, seguimos comprometidos con nuestra misión de ofrecer productos de la más alta calidad y un servicio excepcional a nuestros clientes en todo el mundo. Con cada mosaico que producimos, contamos una historia de dedicación y excelencia, manteniendo viva la magia de Altoglass a lo largo del tiempo.

# 100% RECYCLED PRODUCT 100% COMMITTED

All ALTOGLASS glass mosaics are manufactured from 100% recycled glass, under strict in the house quality control and with a commitment to environmental protection.

The unwavering commitment to environment protection, to quality and customer service is playing a major role in ALTOGLASS as a leading manufacturer in glass mosaics.

Tous les émaux de verre ALTOGLASS sont fabriqués à partir de verre recyclé à 100% soumis à de rigoureux contrôles durant le processus de fabrication avec un compromis envers l'environnement ambiant.

L'inébranlable compromis avec l'environnement ambiant, la qualité et le service client jouent un rôle important chez ALTOGLASS, ce qui la convertit en une compagnie leader en fabrication d'émaux de verre.

Todos los mosaicos de vidrio ALTOGLASS se fabrican a partir de 100% vidrio reciclado, bajo un estricto control en el proceso de fabricación y un gran compromiso con el medio ambiente.

El inquebrantable compromiso con el medio ambiente, la alta calidad de sus productos y el servicio al cliente, son los puntos clave que convierten a ALTOGLASS en una compañía líder en fabricación de mosaico de vidrio.

# Elite Pools

## COLLECTION

Digital printing in glass mosaic is a trend in high decoration projects. The perfect technique to bring uniqueness and sophistication to your pools.

In addition to its stunning aesthetics, digital glass mosaic printing offers unparalleled resistance to wear, fading and chemicals used in pool maintenance. This ensures that your private oasis will retain its splendor for years to come, regardless of weather conditions or constant use.

L'impression numérique en mosaïque de verre est une tendance dans des projets de haute décoration. La technique parfaite pour apporter unicité et sophistication à vos piscines.

Outre son esthétique époustouflante, l'impression numérique de mosaïques de verre offre une résistance inégalée à l'usure, à la décoloration et aux produits chimiques utilisés pour l'entretien des piscines. Votre oasis privée conservera ainsi sa splendeur pendant des années, quelles que soient les conditions météorologiques ou l'utilisation constante.

La impresión digital en mosaico vítreo es toda una tendencia en proyectos de alta decoración. La técnica perfecta para aportar singularidad y sofisticación a tus piscinas.

Además de su impactante estética, la impresión digital en mosaico vítreo ofrece una resistencia incomparable al desgaste, la decoloración y los productos químicos utilizados en el mantenimiento de la piscina. Esto garantiza que tu oasis privado conserve su esplendor durante años, sin importar las condiciones climáticas o el uso constante.

# Relax Emotions

## COLLECTION

The vitreous mosaic is one of the most popular coatings as a decorative element for swimming pools, both for its technical characteristics and its great beauty, it is the ideal solution for any project, its small format allows it to adapt easily to any built form: curves, stairs, slopes, ... and its translucent properties provide a special brightness and luminosity in contact with the water of the pool.

La mosaïque verre est l'un des revêtements les plus populaires comme élément décoratif pour les piscines, tant pour ses caractéristiques techniques que pour sa grande beauté. C'est la solution idéale pour tout projet, son petit format lui permet de s'adapter facilement à toute forme bâtie : courbes, escaliers, pentes, etc. et ses propriétés translucides lui confèrent une brillance et une luminosité particulières au contact de l'eau de la piscine.

El mosaico vítreo es uno de los revestimientos más populares como elemento decorativo de piscina. Tanto por sus características técnicas como por su gran belleza, resulta ser la solución idónea para cualquier proyecto.

Su pequeño formato permite adaptarse con facilidad a cualquier forma construida: curvas, escaleras, pendientes, ... Y sus propiedades translúcidas aportan un brillo y luminosidad especial al contacto con el agua de la piscina.

Piece 1" x 1" · Pieza 2,5 x 2,5 cm.  
Sheet 12 ½" x 12 ½" · Panel 31,6 x 31,6 cm.

The best option to extend the water pleasures beyond the evening.

La meilleure option pour prolonger les plaisirs de l'eau après le coucher du soleil.

La mejor opción para prolongar los placeres del agua más allá del atardecer.

The photoluminescence mosaic NIGHTGLASS from Altoglass is a coating made in a mix of basis glass with a phosphorescent pigment in a sintering process.

The photoluminescence materials have the capacity to absorb the ambient light , both natural or unnatural, keeping this light energy while receiving the light and when it turns down they will show this energy in a long luminescence way. Our materials get a high intensity at the beginning.

The photoluminescence attributes are plenty assimilated in the ceramic tiles products increasing for this its durability and resistance in a significant way.

La mosaïque phosphorescentes NIGHTGLASS d' Altoglass est un revêtement fabriqué à base de verre moulu mélangé avec un pigment phosphorescent soumis à un processus de synthèse.

Les matériaux phosphorescents ont la capacité d'absorber la lumière ambiante, qu'elle soit naturelle ou artificielle ; retiennent cette énergie lumineuse PERSISTANTE quand ils s'arrêtent de la percevoir, ils extériorisent cette énergie sous forme de longue luminescence, ce qui est le cas pour nos matériaux, qui ont une haute intensité initiale.

Les propriétés du phosphorescent sont intégrées pleinement dans la céramique, ce qui augmente la durabilité et la résistance d'une manière très remarquable.

El mosaico fotoluminiscente NIGHTGLASS de Altoglass es un revestimiento fabricado a base de vidrio molido mezclado con un pigmento fosforescente sometido a un proceso de sinterización.

Los materiales fotoluminiscentes tienen la capacidad de absorber la luz ambiente, ya sea natural o artificial; reteniendo esa energía lumínica mientras sigan recibiendo luz y luego cuando dejan de recibirla van a exteriorizar esa energía en forma de larga luminescencia, que en el caso de nuestros materiales tiene una ALTA INTENSIDAD inicial.

Las propiedades fotoluminiscentes se encuentran plenamente integradas en la cerámica aumentando con ello su durabilidad y resistencia de manera muy notable.

NUAGÉS · NIEBLAS  
Piece 1" x 1"  
Pieza 2,5 x 2,5 cm.  
Sheet 12 ½" x 15 ½"  
Panel 31,6 x 39,6 cm.

We present the new Silicone Dot system, it is a support paved with glue points between the pieces, which ensures a perfect installation of the mosaic. It has a greater grip surface, 91% of the reverse of the mosaic is exposed so that when gluing it is adhered to the surface where it is to be placed. In this way it achieves greater durability and avoids possible detachment of parts caused by wear.

Another advantage of this system is the flexibility to adapt to each surface and the ease of cutting the silicone, which means a significant saving of time when installing the product. On the other hand, this system ensures a homogeneous and lasting fixation between pieces due to the quality of the adhesive.

Nous vous présentons notre nouveau système Silicone Dot (Point de silicone), c'est un support composé de points de colle entre les pièces, qui assure une parfaite pose de la mosaïque. Ce qui permet une plus grande surface d'adhérence, 91% du revers de la mosaïque est exposé de sorte que lors du collage il adhère à la Surface où l'on souhaite le placer. De cette façon, on obtient une plus grande durabilité et évite les possibles décolllements de pièces causés par l'usure.

Un autre avantage de ce système est la souplesse d'adaptation à chaque surface et la facilité de la découpe du silicone, ce qui permet un gain de temps important lors de l'installation du produit. D'autre part, ce système assure une fixation homogène et durable entre les pièces grâce à la qualité de l'adhésif.

Os presentamos el nuevo sistema Silicone Dot, se trata de un soporte empalonado mediante puntos de cola entre las piezas, que asegura una perfecta instalación del mosaico. Presenta una mayor superficie de agarre, un 91% del reverso del mosaico queda expuesto para que en su encolado quede adherido a la superficie donde se desee colocar. De esta manera consigue una mayor durabilidad y evita posibles desprendimientos de piezas causados por el desgaste.

Otra de las ventajas que supone este sistema es la flexibilidad para adaptarse a cada superficie y la facilidad de cortar la silicona, lo cual supone un ahorro significativo de tiempo a la hora de instalar el producto. Por otra parte, este sistema asegura una fijación homogénea y duradera entre piezas por la calidad del adhesivo.

## A WIDE PROFESSIONAL TEAM WORKS TO GIVE SHAPE TO YOUR IDEAS

We adapt every design to the ambient you need. We study the project and we evaluate all the chromatic possibilities to get the most ideal result.

UNE GRANDE ÉQUIPE DE PROFESSIONNELS TRAVAILLE POUR DONNER FORME À VOS IDÉES  
Nous adaptons quelconque décor à l'espace nécessaire. Nous étudions le projet et nous évaluons les diverses possibilités chromatiques pour arriver au résultat le plus optimale.

UN AMPLIO EQUIPO DE PROFESIONALES TRABAJA PARA DAR FORMA A TUS IDEAS.  
Adaptamos cualquier diseño al espacio que se precise. Estudiamos el proyecto y valoramos las posibilidades cromáticas hasta dar con el resultado más óptimo.

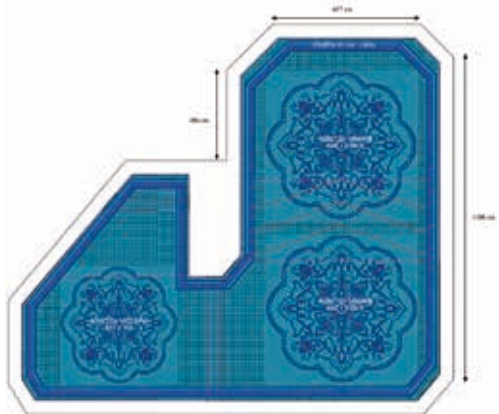

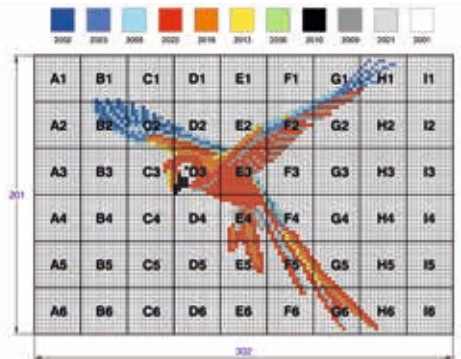

CUSTOMIZED DESIGNS · DESIGNS PERSONNALISÉS · DISEÑOS PERSONALIZADOS

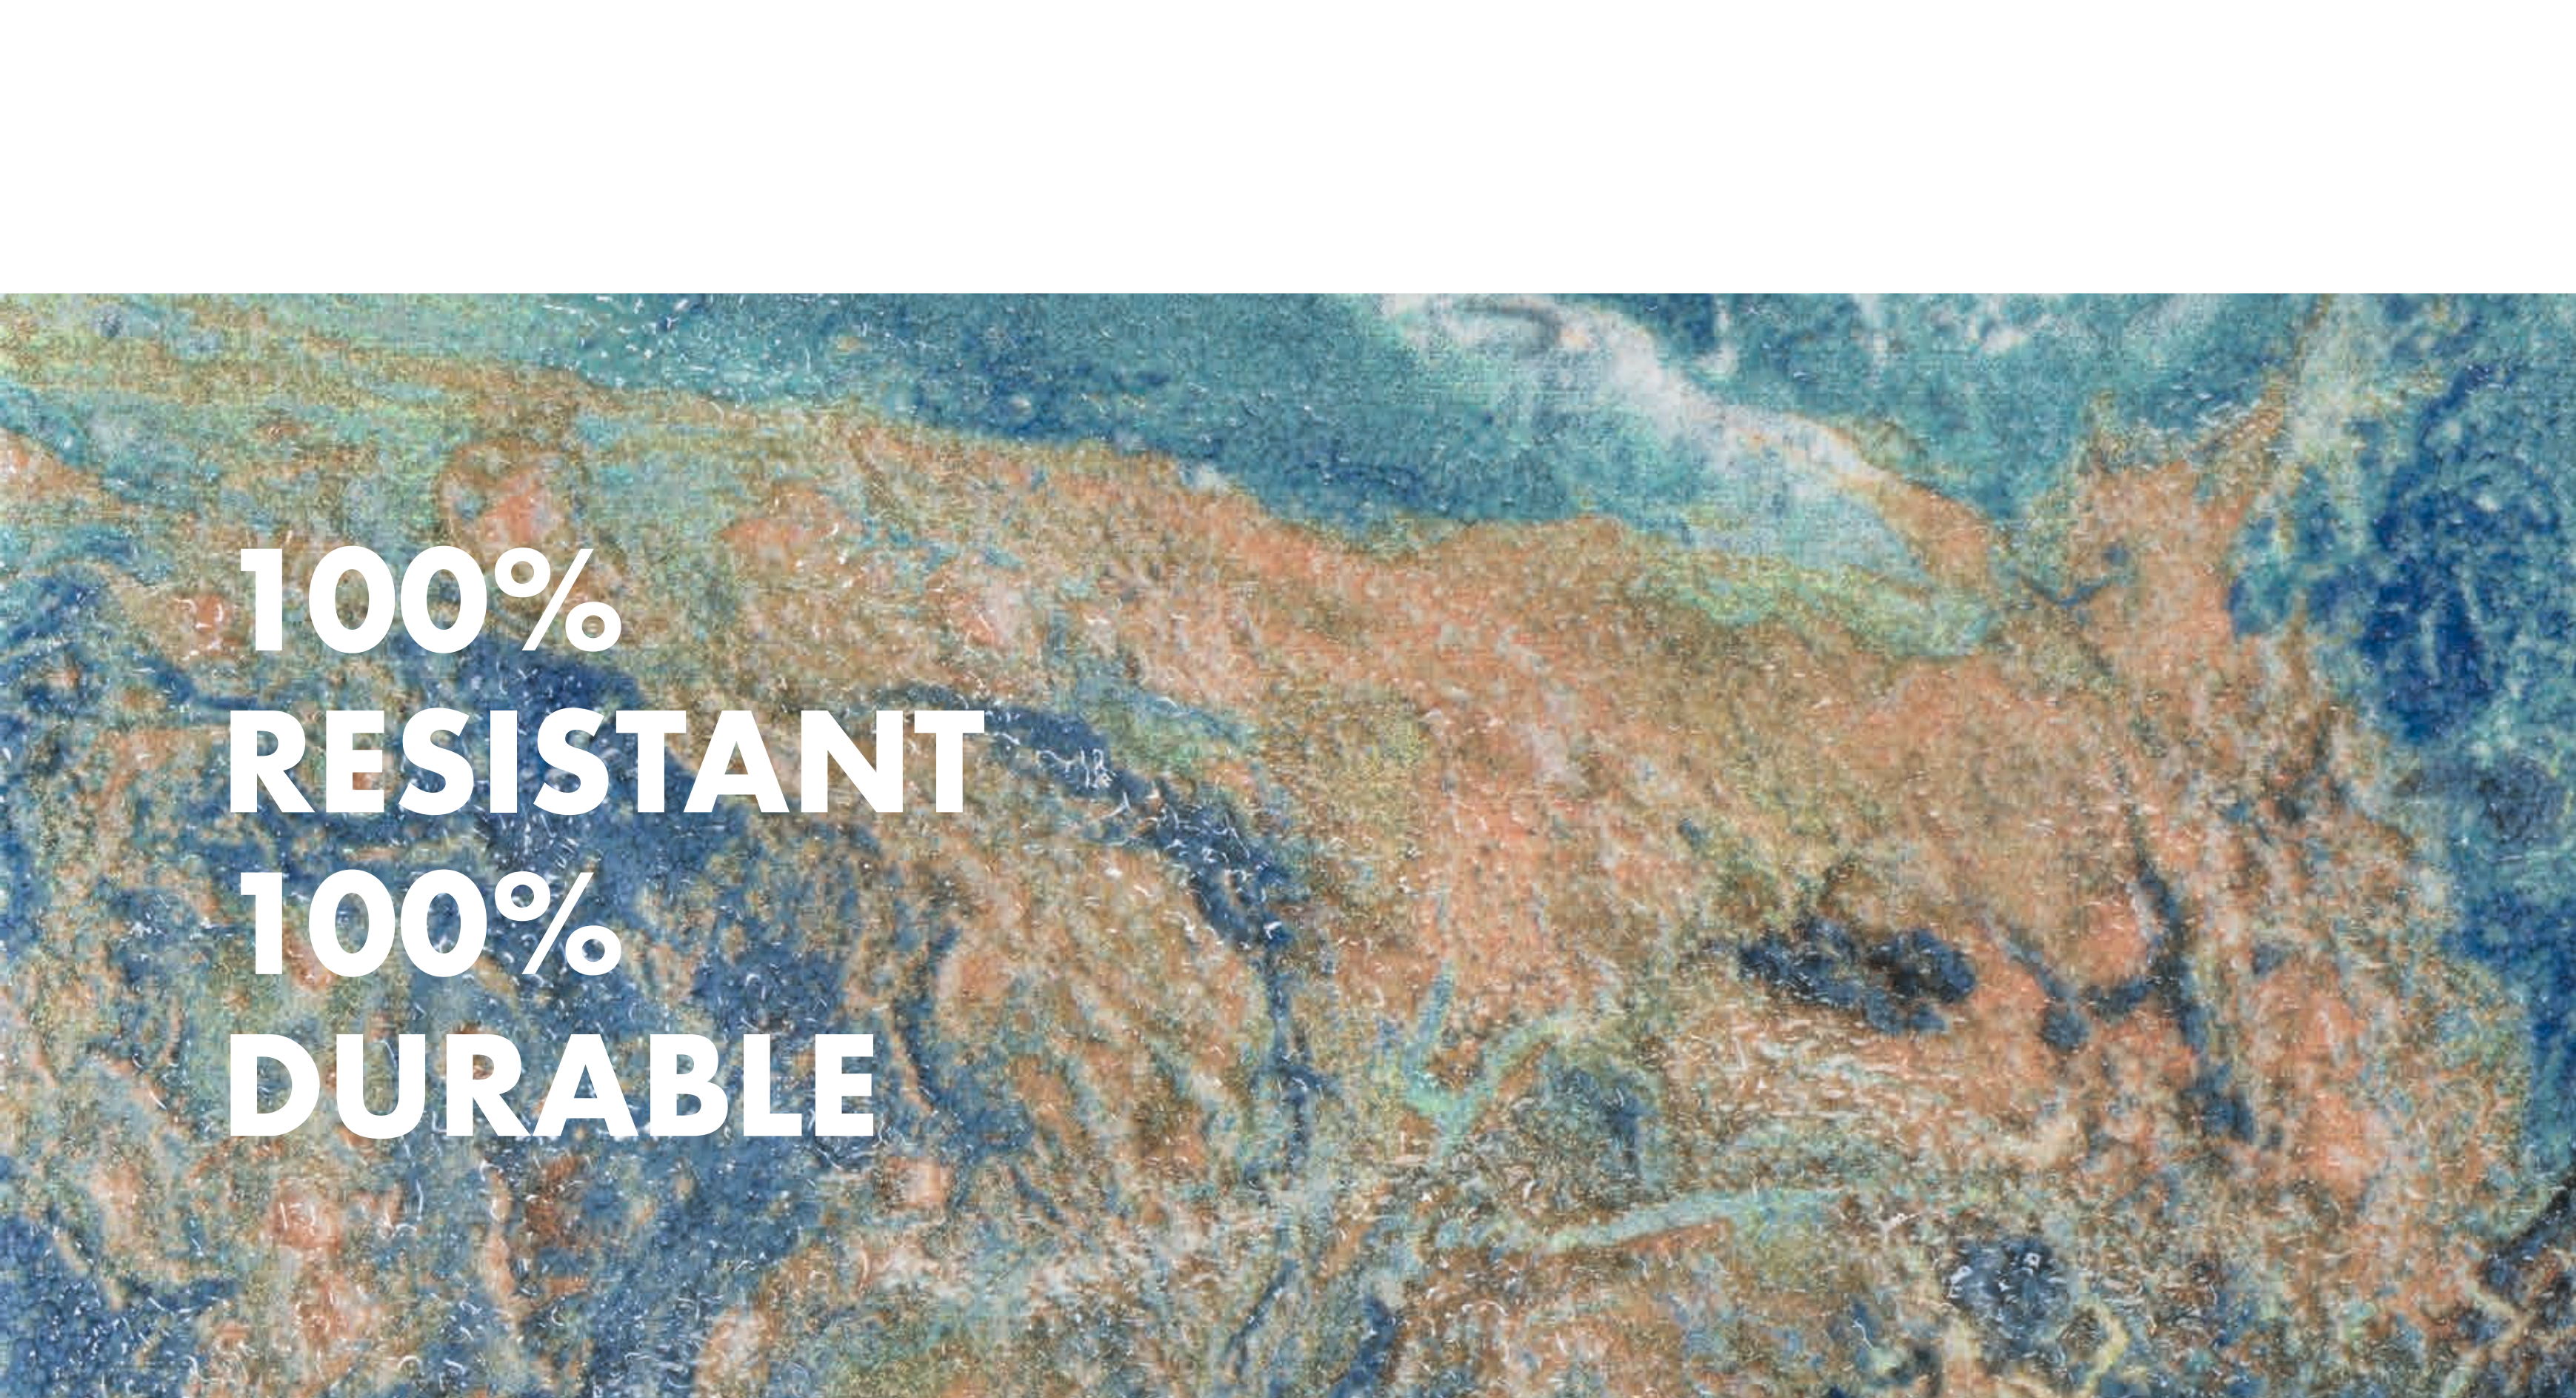

Brands, logos, badges, texts , drawings, images, ....  
Adapted to all your ideas.

De marques commerciales, logos, emblèmes, textes, anagrammes, dessins, images...  
Adapté à toutes vos idées.

Marcas comerciales, logotipos, escudos, textos, anagramas, dibujos, imágenes, ...  
Adaptados todas sus ideas

**100%  
RESISTANT  
100%  
DURABLE**

At ALTOGLASS we are proud to offer pieces of the highest quality porcelain material, known for their exceptional strength and durability.

Thanks to the special composition of our porcelain material, our pieces are able to resist daily wear, humidity and stains, maintaining their original appearance for years.

Chez ALTOGLASS, nous sommes fiers d'offrir des pièces en porcelaine de la plus haute qualité, reconnues pour leur résistance et leur durabilité exceptionnelles.

Grâce à la composition spéciale de notre matériau en porcelaine, nos pièces sont capables de résister à l'usure quotidienne, à l'humidité et aux taches, conservant ainsi leur aspect d'origine pendant des années.

En ALTOGLASS nos enorgullece ofrecer piezas de material porcelánico de la más alta calidad, conocidas por su resistencia y durabilidad excepcionales.

Gracias a la composición especial de nuestro material porcelánico, nuestras piezas son capaces de resistir el desgaste diario, la humedad y las manchas, manteniendo su aspecto original durante años.

# Porcelain Tiles

COLLECTIONS

A small format porcelain product designed for swimming pool cladding and also for the coating of the beach area or outdoor terrace. Its high technical performance, such as high resistance to thermal shock, frost, acids and high durability, makes it the perfect product for any swimming pool project.

Un grès cérame de petit format conçu pour le revêtement des piscines, mais aussi pour le revêtement de la plage ou de la terrasse extérieure. Ses hautes caractéristiques techniques, telles que sa grande résistance aux chocs thermiques, au gel, aux acides et sa durabilité, en font le produit idéal pour tout projet de piscine.

Un producto porcelánico en pequeño formato diseñado para el revestimiento de piscinas y también para el recubrimiento de la zona de playa o terraza exterior. Sus altas prestaciones técnicas, como su alta resistencia al choque térmico, a las heladas, a los ácidos y su elevada durabilidad, lo convierten en el producto perfecto para cualquier proyecto de piscina.

# WHAT COLOR WILL MY POOL'S WATER BE?

The colors of the pool water represented are an orientative simulation. The shade of the water can have variations depending on the incidence of the light according to the time of day, of the season of the year or the location with respect to the hemisphere, volume of the pool, the type of chlorination, the color of the grout, etc.

Les couleurs de l'eau de la piscine représentées sont une simulation orientative. La tonalité de l'eau peut avoir des variations selon l'impacte de la lumière et l'heure durant le jour, et station de l'année où l'endroit par rapport à l'hémisphère, de la profondeur et volumen de la piscine, type de chloration, couleur des joints, etc.

Los colores del agua de la piscina representados son una simulación orientativa. El tono del agua sufre variaciones dependiendo de la incidencia de la luz según la hora del día, de la estación del año o la ubicación respecto al hemisferio, de la profundidad y volumen de la piscina, del tipo de cloración, del color de la junta, etc.

# Fitting Advise (paper)

CONSEILS DE POSER · CONSEJOS DE COLOCACIÓN

1

**Spread a coat of adhesive-based cement across the surface, ensuring that it is flat and even.**

Appliquer uniformément le mortier colle sur la surface totalement à niveau.

Aplicar uniformemente el cemento cola sobre la superficie bien nivelada.

2

**Place the paper-mounted mosaics on top of the cement and press them down with a rubber trowel to guarantee an even surface.**

Pose le filet de mosaïque sur le mortier et comprimer à l'aide d'une taloche en caoutchouc en veillant à égaliser les pièces.

Colocar la malla de mosaico sobre el cemento y ejercer presión con una llana de goma para igualar las piezas.

3

**Leveling all the pieces.**

Aplanir toutes les pièces.

Nivelar todas las piezas.

4

**After 24 hours, wet the Kraft paper until it is thoroughly soaked.**

Après 24 heures, humidifier le papier kraft jusqu'à l'imbiber d'eau.

Al cabo de 24 horas mojar el papel kraft hasta empaparlo de agua.

5

**Remove it with the aid of a sponge to clean off the glue that has remained on the paper.**

Retirer le papier à l'aide d'une éponge a fin d'éliminer l'excès de colle restant du support papier.

Retirar el papel con la ayuda de una esponja para limpiar la cola sobrante que quede en el papel.

6

**Once it is dry, it can be grouted.**

Après séchage, procéder à rejoiner.

Una vez esté seco procederemos a aplicar el material de rejunte.

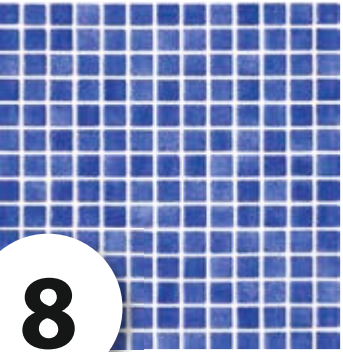

7

**Lastly, clean the surface with a damp sponge and then with a dry cloth.**

Enfin, nettoyer la surface à l'aide d'une éponge humide, puis passer un linge sec.

Por último, limpiaremos la superficie con una esponja húmeda y posteriormente con un trapo seco.

8

**Final result.**

Resultat final.

Acabado final.
